NPIC/P&DS-124-61

24 July 1964

MEMORANDUM FOR: Chief, Technical Intelligence Division

ATTENTION : Chief, Technical Analysis Branch

THROUGH : Assistant for Plans and Development

SUBJECT : Meeting with [REDACTED] representative to
discuss effects of film processing on mensuration

25X1

1. PAR 211 of Contract [REDACTED] is concerned with the effects of processing on photographic image edges. One of the problem areas which will be specifically looked into is that of film mensuration capability, in light of the possible variations processing may effect. So that the contractor may better prepare his program, it will be necessary that he visit NPIC, discuss the basic problems with those most concerned, and examine the equipment used for mensuration.

25X1

2. To this end, a meeting has been arranged with [REDACTED] for the 13th and 14th of August. The latter date has been added to the original plan, in order to allow [REDACTED] some schedule flexibility. Other participants in this meeting [REDACTED]
